

Sustainability Policy

Sivatel Bangkok aims to be “Happy Hotel Happy Workplace” for delivering our happiness to our guests, social and local communities through our sustainability policy and we consider supporting the local products for sustainable development of the country.

We strive to achieve environmental and social sustainability across all areas of its business.

- Encourage and inspire the employees’ participation in order to realize the importance of environmental conservation, waste management, also support community enterprise, and organic farming through our implementation “Happy Hotel Happy Workplace” project
- Set plan and goal on the energy conservation by yearly to continually minimize energy consumption in the hotel for the most efficient and benefits to the planet
- Focus on reducing the amount of wastes in hotel such as wet waste, recycle waste and food waste that tend to the full system of “waste management system”
- Consume the environmental friendly’s products and ingredients especially, the organic products and ingredients for the better health of our employees, our guests and including support and distribute the income to communities and farmers
